

2010 IFAP Safety Calendar

Give your employees a safety message that lasts all year!

IFAP has worked with **WA Primary School** students to produce the **2010 IFAP Safety Calendar** – a collection of colourful pictures with a range of safety messages to reinforce the importance of safety in the workplace and at home from January to December.

Sponsored by **Main Roads Western Australia**, the calendars are ideal for distribution to employees during the holiday season when safety issues often take a back seat to Christmas and New Year festivities. Messages included cover important safety issues in the workplace and at home such as sun safety, use of PPE, fire safety, safe driving, healthy lifestyle and more.

IFAP hopes that through these images, the messages will be reinforced a little more in the workplace and that in some small way this will help to keep your families returning home safely from work.

Produced in an A4 landscape format and spiral bound, they are suitable for hanging in the workplace or at home. Public holidays and WA school terms are featured with plenty of space to mark your own appointments.
