Students learn survival skills

STUDENTS from Emmanuel Catholic College abandoned ship as part of a training session in North Fremantle recently.

The maritime technology students took part in the training simulation held at the In-

dustrial Foundation for Accident Prevention.

School design and technology co-ordinator Brad Nicholas said students learnt sea survival and firefighting techniques in a realistic but controlled environment.

The Year 11 and 12 students are part of the Maritime Vocational Education and Training program at the college in Success, which helps students receive recreational and commercial marine qualifications.
