IFAP **EXTRA**

Get Involved in Promoting Safety in Your Workplace this October!

IFAP is again supporting an important initiative as a partner of RAC Community Safety Month and encourages Members to get involved.

Now in its 4th year, RAC Community Safety Month, held in October, aims to raise community awareness of safety, injury and crime prevention through the promotion of government and community safety programs, events and activities.

Co-ordinated by the Office of Crime Prevention in collaboration with a committee of key industry representatives (including IFAP), the month intends to motivate as many organisations, schools, community groups and volunteers to focus on relevant safety issues by co-ordinating or participating in a host of safety-related events planned for the month.

RAC Community Safety Month focuses on six key areas:

- Crime Prevention
- Emergency Services
- Work Safety
- Road Safety
- Injury Prevention
- Water Safety

Organisations are strongly encouraged to take part in this important safety initiative by jointly co-ordinating activities in line with any of these key themes with IFAP or scheduling their own activities and registering them on the website below.

IFAP will launch its **2008 IFAP Safety Calendar**, supported by Main Roads WA, BHP Billiton Nickel West and RAC Community Safety Month, during the month of October. IFAP will also present prizes to the winning primary schools whose artwork is selected in the calendar. This year 45 primary schools across WA registered in the competition!

IFAP will be holding a **Breakfast Presentation by Professor Steve Allsop** about **Drug Use in the Community and Implications for the Workplace** on Friday 12 October at Kings Park Function Centre. See the enclosed flyer to register.

For an information pack on RAC Community Safety Month email mcraig@ifap.asn.au or visit www.communitysafetymonth.wa.gov.au

IFAP Donate Main Auction Prize to Charity Ball

Every year Ronald McDonald House Charities holds one of the biggest Charity Balls in WA, this year the *Mercedes-Benz Bling Ball*.

IFAP are proud to announce that they will be donating the main auction prize valued at over \$50 000, the main fundraiser of the night. The prize is now known as **The Ultimate Adrenalin Experience** for 12 people over two action packed days!

Last year the Ball raised a whopping \$450,000. Visit the Bling Ball website for more information www.blingball.com.au

The Safety2007 Conference is Here

IFAP's 6th annual IFAP safety conference and exhibition is now only three weeks away!

Get in quick to secure your registration to WA's leading OSH event. With an impressive line up of speakers this is an event on the OSH calendar not to be missed!

To register for Safety2007 contact **Vertical Events** on (08) 9388 2222 or visit www.verticalevents.com.au

IFAP Proud Sponsor of Injury Management Conference

Delegates attending an injury management conference to be held in Perth next month will hear how the level of support an organisation gives its injured workers can have a direct impact on return to work outcomes.

Dr Peter Cotton, Director of Psychology Services with the Health Services Australia Group, will address the **WorkCover WA Injury Management Conference Working together...a better future** on 16 October.

He will give an overview of the influence of 'organisational factors' on an employee's return to work status and will outline recent research examining the relationship between workers' compensation costs and a range of leadership styles.

Dr Cotton, who has held appointments with the National Occupational Health and Safety Commissions, will also discuss how workplace culture can significantly influence outcomes for both psychological and musculo-skeletal injuries.

IFAP is a sponsor of the *Working together...a better future* Injury Management Conference to be held at Perth's Burswood Entertainment Complex on 16 and 17 October 2007.

Organisers say the conference will be especially relevant to those working in the area of workplace safety and injury management.

Online registration is now open at www.imcwa2007.com.au

SEE BACK PAGE FOR IFAP TRAINING DATES

Induction Training Commences at New Centre

Standardised, benchmarked one day induction training, delivered in a practical 'hands on' environment, will begin in late September at the new *Induction Centre's Australia* site at Bibra Lake.

Theoretical training is supported by using real equipment and scenarios. All equipment is operational and is arranged around a realistic operational 'plant', where possible. The aim is for the induction to be as hands on and interactive as possible. Industry has been engaged in the development of the centre, course content, and has donated much of the equipment utilised.

Training

The 25 training modules are designed to provide real life experiences through interactive scenarios, for example:

- Climbing a scaffold
- Walking into an excavation pit from an elevated platform
- Viewing, identifying and entering confined spaces
- Working with vessels and operational gauges, valves and instrumentation that will incorporate stored energy
- Performing electrical and mechanical isolations and tagging to illustrate the correct procedures in dealing with process equipment

Live feedback from the participants through hand held devices as they undertake the induction will ensure competency in the material being delivered.

Key Subject Areas

- Introductory Module
- Duty of Care
- Personal Safety
- Permit to Work/JHA
- Scaffolding
- Working at Heights
- Excavation
- Confined Spaces
- Fire Safety
- Overhead Work
- Rigging/Lifting
- Travel
- Drug and Alcohol
- Mobile Equipment
- Isolation and Tagging
- Electrical Safety
- Hot Work
- Hazardous Materials
- Manual Handling and Ergonomics
- Workshop Tools and Guarding
- High Pressure Blasting
- PPE
- Health
- Housekeeping
- Waste and Environmental Management

Bookings can be made by calling **Bobbie Hall** on (08) 9434 9055.
